

SCMS . . .

. . . Is a means for federal employees to provide best-in-class services to the Department of Energy's Office of Science, the single largest supporter of basic research in the physical sciences in the nation that helps ensure U.S. world leadership across a broad range of scientific disciplines. In addition to managing 10 world-class national laboratories with unmatched capabilities for solving complex interdisciplinary scientific problems. . .

The Office of Science supports a diverse portfolio of research at more than 300 colleges and universities nationwide and builds and operates the world's finest suite of scientific facilities and instruments used annually by more than 21,000 researchers to extend the frontiers of all areas of science.
